

Client: Papakura District Council - New Zealand

Evo Walkway Shelters:

Adshel Infrastructure was awarded a tender by Papakura District Council in New Zealand to fabricate, supply and install 3 runs of single sided Evo Walkway totaling 123m (22m walkway, 26m walkway and 75m walkway). Courtesy lighting and rainwater drainage, which was connected to the existing storm water system, were integrated into the design. The walkways included custom designed toughened glass roof panels with an etched leaf design, with sections having to be modified to accommodate existing Streetlight Poles. On site, Adshel Infrastructure was also required to excavate and pour new concrete footings for the walkways.
